Customer			
PK	customer_id	SERIAL	
	first_name	VARCHAR(50)	
	last_name	VARCHAR(50)	
	payment_method	VARCHAR(50)	

One Customer may have many tickets, you need to be a customer to have ticket(s)

Tickets			
Primary Key	ticket_id	SERIAL	
FK	customer_id	INTEGER	\geq
FK	movie_id	INTEGER	\geq
FK	concession_id	INTEGER	\geq
	price	NUMERIC(8,2)	
	theater_number	VARCHAR(2)	
	seat_number	VARCHAR(3)	

Concessions			
PK	concession_id	SERIAL	
	name	VARCHAR(50)	
	price	NUMERIC(8,2)	
	category	VARCHAR(50)	

	Movies		
\vdash	PK	movie_id	SERIAL
		title	VARCHAR(50)
		rating	VARCHAR(50)
		duration	Integer
		director	VARCHAR(50)
		theater_number	Туре

You may have bought several movies from just one ticket, which is really more of an instance where you make a transaction with the movie theater

Concessions can be purchased, and will be displayed on the ticket.
